

Ethics
Feb. 9, 2022

Misuse of personal information
Misinformation and deep fakes
Lack of oversight and acceptance of responsibility
Use of AI
Autonomous technology
Others:

The issue(s) I see as most likely to threaten my, or my family's, future (family of origin or a new family):

The issue(s) that I see as most significant in the future for me as an ethical computer professional:

As a computer professional, I am committed to.....
