Kevin Welch founded Integra in 1997 and has over 25 years of senior management experience in research & development and engineering management. During his career, he has started, sold, merged, and taken public numerous technology companies. Kevin has also played a key role in the emergence of many technology standards in use today.

Prior to founding Integra, Kevin was CEO of Shared Healthcare Systems, a leading provider of information systems to post-acute healthcare providers.

Kevin holds degrees in mathematics, computer science, operations research, and engineering management. He is also active as a corporate board member of numerous charitable organizations and universities around the country.

In his spare time, Kevin is an avid competitive sailor and mountain biker.
